

Annex 1 – Open letter consultation on the Incentive of Connections Engagement

- 1.1. We would like to hear the views of interested parties in relation to any of the issues set out in our open consultation letter.
- 1.2. We would especially welcome responses to the specific questions which we have set out in our consultation and are replicated below.
- 1.3. If you have any questions on this document please contact:

James Veaney
Head of Connections and Constraint Management
Ofgem, 9 Millbank, London, SW1P 3GE
020 7901 1861
Connections@Ofgem.gov.uk
- 1.4. **Responses should be sent, preferably by e-mail by 17 August 2016 to the address above.**
- 1.5. Unless marked confidential, all responses will be published by placing them in Ofgem's library and on its website www.ofgem.gov.uk. Respondents may request that their response is kept confidential. Ofgem shall respect this request, subject to any obligations to disclose information, for example, under the Freedom of Information Act 2000 or the Environmental Information Regulations 2004.
- 1.6. Respondents who wish to have their responses kept confidential should clearly mark the document/s to that effect and include the reasons for confidentiality. Respondents are asked to put any confidential material in the appendices to their responses.
- 1.7. Next steps: We will consider the responses to this consultation and these will be used alongside other evidence for our assessment of the ICE plans.
- 1.8. Each of the questions asked by this consultation is set out in the template below.
- 1.9. Please ensure that you **indicate the DNO or specific licence area** to which your experiences relate.
- 1.10. When considering your responses to these questions, please consider your experiences, the actions that the DNO has undertaken or committed to undertake, and the actions that you consider it could reasonably undertake.

Response template – Incentive on Connections Engagement July 2016

Question	Response																																		
About you and your work																																			
1. What is the name of your company?	TUSC Ltd																																		
2. Which DNO's ICE submission is your response related to (see Annex 2 for DNO map)? Please indicate clearly in your response to the questions below whether your comments refer to the DNO's plans as a whole, or to one of the DNO's licence areas. If you wish to provide a response to the ICE submission of more than one DNO, please use a separate template for each DNO.	WPD – All Areas																																		
3. What type of connection do you generally require? And for each type of connection, how many connection applications, including total MVA (Mega Volt Ampere) of connections have you made in the past year (across GB)?	<table border="1"> <thead> <tr> <th colspan="2">Type of connection</th><th>Total number of connections</th><th>Total MVA of connections</th></tr> </thead> <tbody> <tr> <td rowspan="4">Metered Demand Connections</td><td>Low Voltage (LV) Work</td><td>-</td><td>-</td></tr> <tr> <td>High Voltage (HV) Work</td><td>6</td><td>20</td></tr> <tr> <td>HV and Extra High Voltage (EHV) Work</td><td>-</td><td>-</td></tr> <tr> <td>EHV work and above</td><td>-</td><td>-</td></tr> <tr> <td rowspan="2">Metered Distributed Generation (DG)</td><td>LV work</td><td>-</td><td>-</td></tr> <tr> <td>HV and EHV work</td><td>20</td><td>170</td></tr> <tr> <td rowspan="3">Unmetered Connections</td><td>Local Authority (LA) work</td><td>-</td><td>-</td></tr> <tr> <td>Private finance initiatives (PFI) Work</td><td>-</td><td>-</td></tr> <tr> <td>Other work</td><td>-</td><td>-</td></tr> </tbody> </table>	Type of connection		Total number of connections	Total MVA of connections	Metered Demand Connections	Low Voltage (LV) Work	-	-	High Voltage (HV) Work	6	20	HV and Extra High Voltage (EHV) Work	-	-	EHV work and above	-	-	Metered Distributed Generation (DG)	LV work	-	-	HV and EHV work	20	170	Unmetered Connections	Local Authority (LA) work	-	-	Private finance initiatives (PFI) Work	-	-	Other work	-	-
Type of connection		Total number of connections	Total MVA of connections																																
Metered Demand Connections	Low Voltage (LV) Work	-	-																																
	High Voltage (HV) Work	6	20																																
	HV and Extra High Voltage (EHV) Work	-	-																																
	EHV work and above	-	-																																
Metered Distributed Generation (DG)	LV work	-	-																																
	HV and EHV work	20	170																																
Unmetered Connections	Local Authority (LA) work	-	-																																
	Private finance initiatives (PFI) Work	-	-																																
	Other work	-	-																																
Consultation questions																																			

Section 1: Looking Back report 2015-16

We want your views on how well the DNOs have performed over the last year

1. Are you satisfied that the licensee had a comprehensive and robust strategy for engaging with connections stakeholders? Do you consider that the licensee implemented its strategy? If not, are you satisfied that the licensee has provided reasonable and well justified reasons?	WPD has a well-developed engagement programme covering the full spectrum of stakeholders including potential future stakeholders. This approach to engagement goes beyond that seen in other DNOs
2. Are you satisfied that the licensee had a comprehensive work plan of activities (with associated delivery dates) to meet the requirements of its connections stakeholders? Do you consider that the licensee delivered its work plan? If not, are you satisfied that the licensee has provided reasonable and well justified reasons?	The work plan included by WPD for 2015/16 is restricted to a select few actions that have been identified as key. The goals and the benefits identified by WPD go far beyond those included by other DNOs, however in terms of reviewing the delivery of the workplan, all actions should have been included.
3. Do you consider that the licensee's work plan provided relevant outputs (eg key performance indicators, targets etc.)? Are you satisfied that the licensee has delivered these outputs? If not, do you view the reasons provided to be reasonable and well justified?	Yes. The outputs highlighted within the report have been delivered and the benefits brought to stakeholders highlighted
4. Do you agree that the licensee's strategy, activities and outputs have taken into account ongoing feedback from a broad and inclusive range of connections stakeholders? If not, has the DNO provided reasonable justification?	Yes. WPDs model for engagement ensures that stakeholders are consulted at multiple stages of the work plan development. By identifying the various levels of knowledge and skills available to stakeholders WPD tailors engagement to specific stakeholders to ensure they were best able to contribute to the work plan.

Section 2: Looking Forward plans 2016-17

We want your views on what the DNOs aim to achieve in the coming year

5. Are you satisfied that the licensee has a	WPD have shown in their workplan that they intend to engage across a wide
--	---

comprehensive and robust strategy for engaging with connection stakeholders and facilitating joint discussions where appropriate?	spectrum of connection stakeholders throughout the year at multiple events
6. Do you agree that the licensee has a comprehensive work plan of activities (with associated delivery dates) that will meet the requirements of its connection stakeholders? If not, has the licensee provided reasonable and well-justified reasons? What other activities should the DNOs do?	The workplan prepared by WPD for 2016/17 has evidently been through a high degree of scrutiny to ensure it will meet the requirements of stakeholders
7. Do you consider that the licensee has set relevant outputs that it will deliver during the regulatory year (eg key performance indicators, targets, etc.)?	The key performance indicators set by WPD are relevant to the target outcomes sought.
8. Would you agree that the licensee's proposed strategy, activities and outputs have been informed and endorsed by a broad and inclusive range of connection stakeholders? If they have not been endorsed, has the licensee provided robust evidence that it has pursued this?	Given WPDs ongoing stakeholder engagement the contents of the workplan for 2016/17 have been informed and endorsed by connections stakeholders. An improvement here, would be the explicit statement of just where customers endorsed the work plan.
We also want your views on how DNO plans will address issues for new connections in constrained areas	
9. Where flexible connection offers are available, do you consider that the DNO's work plan for 2016-17 sufficiently addresses concerns about the uncertainty of curtailment levels? For example, do their plans ensure that stakeholders have access to the data they require for an investment decision?	The workplan makes little reference to flexible connections, and would benefit from giving this greater priority in future work plans.
10. Where consortium connections are available, do you consider that the DNO's work plan for 2016-17 reflect requirements for clear and detailed	WPD are known to offer consortia connections, however there is a lack of information within the workplan identifying this.

information about where, how and under what conditions such projects can proceed?	
11. Where consortium connections are available, do you consider that the DNO's work plan for 2016-17 reflect requirements for clear and detailed information about where, how and under what conditions such projects can proceed?	n/a
12. Do you consider that the DNO's work plans include appropriate engagement to ensure that network investment plans are well communicated to stakeholders, including when new capacity will become available?	WPD are engaging specifically with stakeholders over investment plans to ensure stakeholder concerns are adequately addressed.
13. Do you consider that the DNOs' plans include appropriate activities to improve, where necessary, the provision of information on constrained areas of the network to provide better data about where connections may be viable?	Yes. WPDs plans at present show that WPD is actively seeking to engage stakeholders on the issues surrounding constraint in the network.
14. Are there particular additional activities or outputs which you consider should be included in the work plan of activities to better facilitate grid connections?	n/a
